

DOCUMENTING TRAUMA THROUGH COMICS

WEDNESDAY, FEBRUARY 2, 2022
3:30 P.M. – 4:30 P.M.

During the past two years, we have collectively gone through a great trauma that has affected both teachers and students in profound ways. Trauma that is not recognized and witnessed is difficult to process and move beyond. In this webinar presentation, Louisa Higgins will offer a variety of examples of historical and current graphic novels. She will also present comics done by three local artists, along with an interpretation and explanation of their work. There will be an opportunity to create one's own two to five panel comic during the session. All participants will receive a copy of the presentation slides as well as the handouts including how the arts help with healing and wellbeing.
