

# Planting the Seeds of Change: PK-3 Leadership

As California schools continue to implement universal Pre-Kindergarten and rigorous foundational and developmentally appropriate practices through 3rd grade, the pivotal role of leadership becomes increasingly indispensable in ensuring academic success across all levels.

The Riverside County Office of Education's Early Education Programs and Leadership Center will share valuable practices aimed at fostering alignment from Pre-Kindergarten through 3rd grade, concurrently addressing the nuances of effectively managing complex organizational change.

In this academy presentation from two experienced leaders in preschool and elementary education, you will learn more about:

- Developmentally appropriate practices
- Leadership strategies for navigating complex change
- Future opportunities for engagement and networking with fellow elementary site leaders

Join us in this complimentary opportunity to sow the seeds of academic and communal growth for students and the school site.

This series kick-off will plant the seeds of change for leaders creating developmentally informed, culturally relevant, joyful, and playful Preschool/Transitional Kindergarten - Third Grade Alignment.

Who Should Attend:

Elementary Site Leaders and Early Education District Leaders
